DOUBLE THE FUN

Make a grand statement with twin flocked trees, as seen in HGTV Dream Home 2021. The snowy white backdrop creates the perfect canvas for ornaments to truly pop and sparkle.

GO WITH OUT OF THE WOODS TREE DESIGN

Embrace nature's beauty with a fresh evergreen adorned in metallic baubles and DIY pinecone ornaments. The crowning touch? A handcrafted gold-leafed kraft paper star.

BOLD AND BRIGHT

Unleash your inner maximalist this season. Layer your tree with sparkling baubles, elegant glass teardrops, and a mix of handmade treasures featuring vibrant marble patterns.

MIX METALLIC ORNAMENTS

Create luxury with a blend of gold, bronze, and champagne decorations. Combine different-sized ornaments with shimmering ribbon accents, metallic foliage picks, and delicate snowflakes.

TEXTURED CHRISTMAS TREE

Skip traditional string lights for a tree that shines through its ornaments alone. Mix mirrored spheres with yellow and bronze baubles, then add wooden and wool elements for an earthy balance.

GO WITH A NEUTRAL THEME

Embrace elegant simplicity with gold and white decorations. Stick to timeless elements: white glass balls, natural pinecones, and wooden star cutouts.

GO THE CLASSIC WAY

Blend contemporary and traditional by pairing classic silver and gold ornaments with beaded garland and a modern monogram tree topper.
