

TOP 45 SUNROOM IDEAS YOU WILL LOVE

GO WITH A WOOD-PANELED DESIGN

Embrace natural textures by incorporating wood paneling into your sunroom design. The warm, rustic feel of wood will create a cozy and inviting atmosphere, while still allowing the sunlight to flood the space.

EASE ADD SOME SLEEPING PORCHESR PLACE SETTING

Sleeping porches were once used to create a more comfortable sleeping environment during the warm months (before air conditioning was common in households).

ADD LOTS OF PLANTS

Filling your sunroom with lush greenery can create a peaceful and refreshing atmosphere. Choose a variety of plants to add texture and visual interest.

GO WITH A BRICK FLOOR

Brick floors add a timeless, rustic charm to a sunroom. The warm tones of the brick complement the natural light and create a cozy, inviting atmosphere.

MAKE IT AS BRIGHT AS POSSIBLE

Maximize the natural light in your sunroom by incorporating large windows, sliding glass doors, and even a skylight if possible.

BUILD ONE BY THE POOL

This bright sunroom doubles as a pool house, allowing you to lounge poolside while still reaping the benefits of indoor life (namely, air-conditioning).

BUILD ONE IN THE GARDEN

If your garden is flourishing, consider building your sunroom right in the middle of it.
