After Dinner Patio Design

Design your patio to support natural flow between activities. Create distinct zones that transition smoothly from poolside refreshments to BBQ gatherings, ending with fireside lounging.

Brick Floor Patio Design

Define distinct spaces using herringbone brick patterns as "area rugs." Complement with architectural features like water elements, wooden gates, and espalier plantings along walls.

Merge Patio With Your Living Room

Blur indoor-outdoor boundaries on covered patios using coordinated furniture styles. This creates a seamless entertainment space with easy access to indoor amenities.

Create a Private Sunbathing Space

Designate a sunny spot for lounging with extension chairs and teak furniture. Perfect for both daytime sunbathing and evening entertaining.

Use Modern Furniture

Update traditional patio spaces with contemporary pieces. Choose clean lines and modern materials over conventional outdoor furniture for an unexpected twist.
